

## 5<sup>th</sup> & 6<sup>th</sup> July 2011 Board decisions

### Outline proposals

The following outline proposals have been shortlisted to submit a full proposal for consideration by the NIHR Standard Commissioning Board at its next meeting:

Project ref.	Applicant	Institution	Project Title
10/93/03	Professor John Macleod	University of Bristol	The use of mobile telephone short message service to enhance screening and control programmes for genital Chlamydia trachomatis: feasibility study
10/93/04	Dr Caroline Free	London School of Hygiene	Can text messages increase safer sexual health behaviours in young people? Intervention development and pilot trial.
10/131/01	Dr Julia Bailey	University College London	An interactive computer-based intervention for condom use training: intervention development and pilot trial
10/131/02	Professor Paul Flowers	Glasgow Caledonian University	Condom use training: developing an intervention and conducting a feasibility study
10/134/02	Dr Gary Mills	Sheffield Teaching Hospitals NHS Foundation Trust	Non-invasive ventilation weaning study in intensive care patients (NIVweanICU)
10/134/05	Professor Kathryn Rowan	Intensive Care National Audit and Research Centre	The NIVEA Trial: The Non-Invasive Ventilation EvAluation Trial for protocolised weaning in critically ill patients.
10/134/06	Professor Gavin Perkins	University of Warwick	Protocolised trial of invasive and non-invasive weaning off ventilation
10/135/02	Professor Catherine Sackley	University of Birmingham	A multi-centre randomised controlled trial to compare the clinical and cost effectiveness of Lee Silverman Voice Treatment versus standard NHS speech and language therapy versus control in Parkinson's disease (PD COMM)

10/137/01	Mr Samuel McClinton	Aberdeen Royal Infirmary	Therapeutic Interventions for Stones of the Ureter (TISU): a multicentre randomised controlled trial of extracorporeal shockwave lithotripsy, as first treatment option, compared with direct progression to ureteroscopic retrieval, for ureteric stones.
10/143/01	Dr Tim Harrison	University of Nottingham	The clinical and cost-effectiveness of temporarily quadrupling the dose of inhaled steroid to prevent asthma exacerbations; a pragmatic, randomised, normal care, controlled trial.
10/145/01	Dr Simon Noble	Cardiff University	A feasibility study to inform the design of a randomised controlled trial to identify the most clinically and cost effect length of Anticoagulation with Low molecular weight heparin In the treatment of Cancer Associated Thrombosis (ALICAT)
10/145/03	Professor Annie Young	University of Warwick	Duration of anticoagulation therapy in SELECTeD Patients with Advanced Cancer at Risk of Recurrence of Venous Thromboembolism (SELECT-D)
10/146/01	Dr Saul Faust	Southampton University Hospital NHS Trust	Duration of intravenous antibiotic therapy for children with acute osteomyelitis or septic arthritis: a feasibility study

## Full proposals

The following full proposals have been recommended for either immediate funding or for funding subject to certain conditions:

Project ref.	Applicant	Institution	Project Title
10/62/03	Dr Khalida Ismail	Institute of Psychiatry	A multi-centre randomised controlled trial comparing the effectiveness of enhanced motivational interviewing with usual care for reducing cardiovascular risk
10/63/03	Dr Heather Fortnum	University of Nottingham Medical School	Cost-effectiveness of screening for permanent hearing loss in children at school entry
10/65/02	Mr Jason Waugh	Newcastle-upon-Tyne Hospitals NHS Trust	How accurate is spot urinary protein:creatinine ratio (SPCr) and spot albumin:creatinine ratio (SACr) compared to 24-hour protein estimation to assess women with hypertensive disease in pregnancy (HDP) after 24 weeks gestation.

10/66/01	Dr Henry Scanlon	University of Oxford	Development of a cost-effectiveness model for optimization of the screening interval in diabetic retinopathy screening.
10/68/01	Dr Stuart Taylor	University College London	Comprehensive staging of newly diagnosed lung and colorectal cancer: Prospective multicentre comparison of whole body Magnetic Resonance Imaging with standard diagnostic imaging pathways
10/69/05	Professor Nadine Foster	Keele University	Evaluating Acupuncture and Standard care for pregnant women with low BACK pain (EASE BACK trial): a feasibility and pilot study
10/71/01	Dr Miles Witham	University of Dundee	Does oral sodium bicarbonate therapy improve function and quality of life in older patients with chronic kidney disease and low-grade acidosis? A multicentre randomized placebo controlled trial
10/133/01 ES	Mr Michael Gillett	University of Sheffield	The cost-effectiveness of testing strategies for type 2 diabetes
10/136/01 ES	Dr Craig Ramsay	University of Aberdeen	Ablative therapy for men with localised prostate cancer
10/140/02 ES	Dr Tamsin Ford	Peninsula College of Medicine and Dentistry	Non pharmacological interventions for Attention-Deficit/Hyperactivity Disorder (ADHD) delivered in school settings: a systematic review of quantitative and qualitative research
10/141/02 ES	Professor Kamleep Bhui	Barts and the London Queen Mary University of London	Therapeutic Communications in Black and Minority Ethnic Populations: a synthesis of the evidence base
10/142/01 ES	Professor Chris Hollis	Queens Medical Centre	Clinical effectiveness and patient perspectives of different treatment strategies for tics in children and adolescents with Tourette syndrome: An evidence synthesis

Further information on the above projects will be provided on the HTA website, once the project has started.
